ABSTRACT OF STATISTICS
FOR
TAMIL NADU

VOLUME XXV No. 3
FOR THE QUARTER ENDED SEPTEMBER 1980

DEPARTMENT OF STATISTICS
MADRAS.

PREFACE.

The Abstract of Statistics for Tamil Nadu presents current statistics on important select items in the form of a compendium. This publication is intended to serve as an authoritative book of reference for Government Departments, Statisticians, Economists, Planners, Research Scholars and others.

This issue covers, in the main, statistics for the quarter ended September 1980 with comparative data as available.

The Chapters on "Economic Situation in Tamil Nadu" and "Select Economic indicators", afford an indication of the tempo of progress in our State.

A special feature of this issue is the inclusion of a report on "Structural changes in the total quantum of Foreign Exports through Tamil Nadu ports during 1960-61 to 1977-78".

The Co-operation extended by other Heads of Departments in furnishing relevant statistics, is gratefully acknowledged.

Madras :

Date : 19th December 1980.

V. RAMAMURTHY,
Commissioner of Statistics.

ECONOMIC SITUATION IN TAMIL NADU.

Rainfall.--In July 1980, the state had a normal rainfall, while the rainfall was deficient in August and September 1980. During the South West Monsoon period (June to September 80), also, there was deficient rain fall in the State. The districts of Madras, Chengalpattu, Ramanathapuram and the Nilgiris alone recorded normal rainfall and all other districts except Tiruchy had deficient rainfall during this Monsoon period. In Tiruchy district the rainfall was scanty.

In July 1980, the districts of Madras, South Arcot and Salem had an excess rainfall and North Arcot, Chengalpattu, Pudukkottai and the Nilgiris districts recorded normal rainfall. In August 1980, Madras and Chengalpattu districts alone registered an excess rainfall while the rainfall was normal in North-Arcot district, Madurai, Ramanathapuram and Tirunelveli districts had an excess rainfall in September 1980, while the districts of Coimbatore, Periyar and Kanniakumari received normal rainfall.

Climate.--On most of the days in the first fortnight of July 1980, moderate to strong lower tropospheric winds prevailed over Tamil Nadu. An upper air cyclonic circulation at 5-8 km. a.s.l laid over west Central Bay of North Tamil Nadu Coast, resulting in isolated rainfall in most of the days. A trough on sea level chart was running from Kanniakumari to Cudappah through Adirampattinam and Vellore from 18th to 20th. Lower tropospheric westerlies over Peninsula strengthened and were moderate to strong during 21st to 23rd causing scattered rainfall over Tamil Nadu on 19th and isolated on all the remaining days of the third week of July 1980. Lower tropospheric westerlies were of the order of 30-40 knots during 25th and 27th. Trough on sea-level chart was passing through coastal Tamil Nadu during 29th and 30th. Isolated rainfall occurred on all days of the last week of July 1980.

On most days of the first fortnight of August 1980, a sea level trough was passing over Tamil Nadu. Lower tropospheric winds were of the order of 25-30 knots over the South Peninsula, causing isolated rainfall over Tamil Nadu during the first fortnight except on 9th when the weather was dry. During the third week of August also, a trough on sea level chart was running from South Coastal Andhra Pradesh to South Coastal-Tamil Nadu East-West trough line was running roughly along Lat. 14 degrees North at 5-8 km. a.s.l. Lower tropospheric westerlies were of the order of 30-35 knots over the region. Scattered rainfall occurred on 19th and isolated rainfall on the rest of the third week of August. Lower tropospheric Westerlies were strong on few days of the last week of August and the rainfall was isolated on all days.

On 1st and 2nd September 1980, lower tropospheric Westerlies were strong causing isolated Rainfall in Tamil Nadu. During 4th to 10th September lower tropospheric westerlies were generally weak to moderate and the rainfall was isolated in Tamil Nadu, on all these days except on 8th when there was no rain. A low pressure area laid over North East and adjoining west central Bay with a trough from this system running Southwestwards to South Coastal Tamil Nadu on 11th and 12th resulting isolated rainfall on these days. Trough line at 0-9 km. a.s.l. was extending to Tamil Nadu from deep depression field over North-India from 18th to 21st resulting isolated rainfall on 20th and 21st September. An extended low pressure area laid over Tamil Nadu and adjoining land areas from 22nd to 24th September during which the rainfall was scattered over Tamil Nadu. An upper air trough extending upto 900 metre a.s.l. was running from Lakshadweep to South West Bay across South Tamil Nadu on 26th. An eastwest trough was running across extreme South-Peninsula in the lower tropospheric levels upto 29th. An upper-air cyclonic circulation was lying off North Tamil Nadu Coast on 30th extending upto 900 metre. a.s.l. Rainfall was generally scattered to fairly widespread during the last week of September over Tamil Nadu except on 27th and 28th when it was isolated.

Water Supply.--Water supply was adequate in all districts except Chengalpattu, North Arcot, Pudukkottai and Ramanathapuram. Most of the irrigation tanks in these districts were dry

Water level.--As the South-West Monsoon has failed this year, the Water level in most of the reservoirs did not rise and went down when compare to previous year level due to the release of water for agriculture.

Agriculture.--The total geographical areas of Tamil Nadu according to village papers was 13-0 Million hectares in 1978-79. Out of which, the net area sown accounted for 6-3 million hectares, the areas cultivable but not cultivated formed 2-4 million hectares and the uncultivable land was 4-3 million hectares. Out of the 6-3 million hectares of net area sown 2-8 million hectares or about 45 per cent was irrigated. The area sown more than once was 1-4 million hectares of which 0-9 million hectares or about 66-02 percent was irrigated.

Index numbers of agricultural economy. —The provisional indices (for 1979-80) of area under crops, cropping intensity, yield, productivity per net hectare, and the Index of Agricultural Production have increased by 3.4 points, 3.2 points, 3.0 points, 7.8 points and 8.1 points respectively when compared with the previous year 1978-79. There is no change in the Index of cropping pattern.

Coconut and Arecanut. —According to the provisional estimates of Coconut and Arecanut survey the estimated area under Coconut in Tamil Nadu for 1979-80 was 1,14,860 hectares and its total production was 1,192.20 million nuts. When compared with the previous year, the estimated area and production of coconut showed an increase of 4.89 percent and 6.13 per cent respectively.

The estimated area under arecanut total in Tamil Nadu during 1979-80 was 4,280 hectares with the total production of 2,992 tonnes of cured arecanuts registering an increase of 2.88 per cent and 2.82 per cent respectively over the previous year.

Minor crops. —During the year 1978-79 the total area for the districts covered under Onions, Chillies, Potatoes (Winter and Summer combined) and Tapioca was 24,648, 1,03,920, 10,535 and 52,679 hectares respectively, while the estimated production of these crops was 2,60,090, 78,980, 75,040 and 16,41,320 tonnes respectively.

Crop Prospects. —Water supply is adequate in all the districts except North Arcot, South Arcot and Ramanathapuram during the quarter.

Ploughing and sowing operations have been completed in all districts except South Arcot Pudukkottai, Thanjavur and Tiruchirappalli districts. Ploughing operations were in progress in certain parts of Tittagudi, Villupuram, Tindivanam, Kattumannarkoil, Paarutti and Ulundurpet taluks of South Arcot districts.

Transplantation was over in all districts except North Arcot, South Arcot, Thanjavur, Pudukkottai, Madurai, Tirunelveli and Periyar districts. Transplantation of Samba under well ayacuts is in progress in North Arcot district. Transplantation of paddy was in progress in certain parts of Chidambaram, Kattumannarkoil, Paarutti, Virudhachalam and Kallakurichi taluks of South Arcot district. Kuruvai and Samba transplantation has been completed in Thanjavur district. Transplantation of paddy was going on in certain pockets in Usilampatti taluks of Madurai district. Transplantation works have not yet been completed in lower irrigation reaches of Tirunelveli district due to non-receipt of water.

The condition of standing crop is fair in all districts except groundnut in North Arcot district, unirrigated crops in Tiruchirappalli and dry crops in Dharmapuri. In some pockets the groundnut crop will wither if sufficient rains do not come early in North Arcot district. In Tiruchirappalli district unirrigated crops in dry tracts have started withering for want of rain. Dry crops are withering for want of rain in Dharmapuri district.

The out-turn of paddy and sugar cane was fair in North Arcot, South Arcot, Salem and Coimbatore districts. The out-turn of ragi harvested was normal in North Arcot, Salem and Coimbatore districts.

Industries. —The industrial production in registered sector in Tamil Nadu decreased by 9.7 per cent during the quarter ended June 1980 as the average general index decreased from 182.0 in the quarter ended March 1980 to 164.3 in the quarter ended June 1980. The decrease in the General index was mainly due to the inadequate performance of manufacturing and electricity sectors which recorded decreases of 10.5 per cent and 10.3 per cent respectively.

Significant decreases in production were noticed in respect of Sugar (Refined), Tubes (all types) superior kerosene, high speed diesel oil, high pressure boilers and fittings, transformers and railway wagons.

However considerable increases in production were observed in respect of lignite, bauxite, magnesite, refined oil, tea (processed), coffee (cured) and safety matches.

Handloom. —The production of handloom cloth in Tamil Nadu during the quarter ended June 1980 was estimated at 164,758,000 metres as against 170,164,000 metres during the previous quarter, registering a decrease of 3.17 per cent. This fall in the production of handloom cloth was mainly due to the increase in the prices of yarn and the heavy accumulation of stocks of handloom goods as a result of which the weavers were not willing to take a risk in producing more cloth.

Joint Stock Companies.—During the quarter ended September 1980, nine public companies and 104 private companies were newly registered as against 10 public companies and 105 private companiescess during the previous quarter.

The total authorised capital of newly registered public and private companies during the quarter ended September 1980 was Rs. 1,061.54 lakhs as against Rs. 1,144.42 lakhs during the previous quarter.

During this quarter under review two companies went into liquidation as against one company during the previous quarter.

Electricity.—During the quarter ended September 1980 the generation of electricity was 1961 million units as against 1,479 million units during the previous quarter.

The total consumption of electricity decreased froth 1,973 million units during the quarter ended March 1980 to 1872 million units during the quarter ended June 1980.

Transport.—During the quarter ended June 1980, the total number of newly registered motor vehicles in Tamil Nadu was 9,376 as against 8,543 during the previous quarter.

Index numbers of wholesale prices in Tamil Nadu (1970-71=100).—During the quarter ended 30th September 1980, the index number of wholesale prices in Tamil Nadu advanced by 3.35 per cent to 229.67 from 222.22 in the previous quarter.

Consumer Price Index Numbers (Base: 1960— 00).—During the quarter ended September 1980 the Consumer Price Index Number advanced in all the centres namely, Madras City, Cuddalore, Tiruchirappalli, Madurai, Coimbatore, Nagercoil and Coonoor as compared with the Index for June 1980.

Rural Price Index Numbers in Tamil Nadu (1970-71=100).—During the quarter ended September 1980, the Rural Price Index Number in Tamil Nadu moved up by 4.55 per cent to 224.72 as against 214.94 in the previous quarter.

Consumer Price Index Number for Urban Non-Manual Employees (Base 1960=100). During the quarter ended September 1980 the consumer price Index Number for urban non-manual employees increased in all the centres viz., Madras, Madurai and Tiruchirappalli.

Index numbers of Party(1954-55=100).—During the quarter under review the index of price received by the farmer moved up by 1.69 per cent to 481 and index of price paid by the farmer also increased by 1.59 per cent to 702. The index of parity however remained stationery at 68.

Trade.—The total quantum of foreign trade through the Ports in Tamil Nadu during the quarter ended 31st March 1980 was of the order of Rs.459 crores (Provisional) of which exports accounted for Rs. 198 crores and imports Rs. 261 crores. As compared with the corresponding quarter of the previous year the exports and imports showed an increase of 69.8 per cent and 6.5 per cent respectively.

Employment.—The total number of employment seekers on the live register of employment exchanges at the end of the Quarter ended September 1980 increased by 3.98 per cent when compared to the previous quarter. The number of persons registered in the Exchanges during this quarter increased by 53.72 per cent, when compared to the previous quarter. The placements made through the Employment Exchanges during the quarter under review was also increased by 4.01 per cent when compared to the previous quarter.

Local Bodies.—As on 31st March 1978, there were 2 corporations, 3 special Grade, 10 Selection Grade, 25 First Grade, 33 Second Grade and 25 Third Grade Municipalities and eight Township Committees in the State.

STRUCTURAL CHANGES IN THE TOTAL QUANTUM OF FOREIGN EXPORTS THROUGH TAMIL NADU PORTS DURING 1960-61 TO 1977-78.

Foreign Exports play a vital role in the economic growth of a nation. It is more so in the case of a developing country like India. Underdeveloped countries depend mostly upon the imports from other countries for capital formation and industrialisation. As the imports will have to be paid for only by exports, there is a plight among developing countries to increase the quantum of exports. In the following paragraphs, the changes that have taken place in the total quantum of exports through the Tamil Nadu ports during 1960-61 to 1977-78 are discussed in detail.

There are 4 sea ports and 2 air ports through which imports and exports are carried on in Tamil Nadu. They are Madras Port, Cuddalore Port, Nagapattinam Port and Tuticorin Port and St. Thomas Mount Air Port and Tiruchirappalli Air Port. The total quantum of export carried through these ports increased from Rs. 63 crores during 1960-61 to Rs. 539 crores during 1977-78. The increase was quite gradual. The export doubled itself from 63 crores in 1960-61 to Rs. 130 crores during 1967-68. The increase was four-fold during 1972-73 (Rs. 252 crores) as compared to 1960-61 (Rs. 63 crores). The index number of exports the year 1977-78 works out to 855 using 1960-61 export figures as base or 100.

It would be quite interesting to watch the figures of exports through Tamil Nadu ports as compared to All India exports. The exports through Tamil Nadu ports has increased in conformity with the All India exports, keeping the same pace of growth. The All India exports increased from Rs. 640 crores during 1960-61 to Rs. 5,595 crores during 1977-78, the increase being 8.6 times during 1977-78 as compared to 1960-61. Similarly the exports through Tamil Nadu ports also from Rs. 63 crores during 1960-61 to Rs. 539 crores during 1977-78, the increase being 8.5 times during 1977-78 as compared to 1960-61. It is also observed that there were no remarkable changes in the share of Tamil Nadu ports in All India exports. The least contribution of Tamil Nadu ports to All India exports was 9.2 per cent during 1974-75 and the maximum share was 13.7 per cent during 1969-70. On the whole, the percentage contribution of Tamil Nadu ports to All India exports ranged between 9.2 per cent to 13.7 per cent during the years 1960-61 to 1977-78.

The growth of exports through Tamil Nadu ports was considerable when compared with imports. The exports increased by 8.5 times during 1977-78 as compared to 1960-61, while the imports grew only 5.1 times during the above period. The ratio between exports and imports was 1:2.4 and 1:2.6 during 1966-67 and 1967-68 respectively. It was 1:2 during 1965-66 and 1968-69; 1:1.7 during 1964-65 and 1974-75; 1:1. during 1962-63; 1970-71 and 1971-72; 1:1.5 during 1960-61, 1962-63 and 1973-74; 1:1 during 1972-73, 1975-76 and 1976-77. During the year 1977-78 the ratio between exports and imports fell to the lowest level of 1:0.9 which means the total quantum of exports was more than the total quantum of imports during the year.

It is heartening to see that the exports through Tamil Nadu ports have gained momentum, from 1975-76. The exports increased from Rs. 302 crores during 1974-75 to Rs. 452 crores, Rs. 522 crores and Rs. 539 crores during the years 1975-76, 1976-77 and 1977-78 respectively. During this period, the total quantum of exports has not only equalled with the imports but also have exceeded the total quantum of imports. The ratio between exports and imports was 1:1 during 1975-76 and 1976-77 and 1:0.9 during 1977-78. To sum up, a very conducive atmosphere is prevailing as far as the exports through Tamil Nadu ports are concerned.

PART D

1944-45

I. CLIMATE AND RAINFALL.

RAINFALL. The daily rainfall data are collected every month in respect of 462 rain gauge stations spread over Tamil Nadu maintained by the Revenue Department, Public Works Department, Forest Department, India Meteorological Department and Southern Railways.

During the current South West Monsoon period the State had deficient rainfall while it was normal during the same period of the previous year. The districts of Salem, Coimbatore, Periyar, Tiruchy, Thanjavur, Madurai and Tirunelveli which had an excess rainfall during the previous period, had either deficient or scanty rainfall during the current period.

@ Average of 50 years rainfall ending 1950.

* Provisional.

Rainfall classification :

Excess : +20 per cent and above the normal.

Deficient : — 20 per cent to — 59.9 per cent of the normal.

Scanty : 60 per cent and less of the normal.

Normal : — 19.9 per cent to + 19.9 per cent of the normal.

Water Supply.—Water supply was adequate in all districts except Chengalpattu, North Arcot, Pudukkottai and Ramanathapuram. Most of the irrigation tanks in these districts were dry.

As the South-West Monsoon has failed this year, the Water level in most of the reservoirs did not raise and went down when compare to previous year level due to the release of water for agriculture.

II. AREA AND POPULATION.

AREA, POPULATION, DENSITY, LITERACY, ETC.

Tamil Nadu occupies the eleventh rank among the States in India in regard to size with an area of 130,069 sq. km.

As regards population, Tamil Nadu ranks fifth among the States in India. According to Census 1971 the population in Tamil Nadu is 41,199,168 of which 50.6 per cent are males and 49.4 per cent are females 28,734,334 persons or 69.7 per cent of the population are in rural areas and the remaining 12,464,834 persons or 30.3 per cent are in Urban areas.

Of the total population, 14,741,967 persons (35.8 per cent) are classified workers and 26,457,201 persons (64.2 per cent) are non-workers. Among the workers 11,667,065 (79.1 per cent) are males and 3,074,902 (20.9 per cent) are females.

Literates from 39.5 per cent of the total population (16,256,393 persons) as against 31.4 per cent in 1961. Madras City has the highest percentage of Literacy viz. 62.01, while Dharmapuri district has the lowest percentage viz. 22.3

According to Census 1971, the density of population in Tamil Nadu works out to 317 per sq.km. Madras city has the highest density of population viz., 19,293 while Dharmapuri district has the lowest density of population viz. 174.

The population of scheduled castes and scheduled tribes in Tamil Nadu is 7,627,110 forming 18.51 per cent of the total population. 7,315,595 persons belong to scheduled castes and 311,515 persons are scheduled tribes. Chengalpattu district has the largest percentage of these two classes of people i.e., 27.22 while Kanniakumari district has the lowest percentage of scheduled castes and scheduled tribes, i.e., 4.12.

2.1 AREA AND POPULATION BY DISTRICTS

III. AGRICULTURE.

The total geographical area of Tamil Nadu according to village papers was 13.0 million hectares in 1978-79. Out of which the net acres, sown accounted for 6.3 million hectares the area cultivable but not cultivated showed 2.4 million hectares and the uncultivable lands was 4.3 million hectares. Out of the 6.3 million hectares of the net area sown 2.8 million hectares or about 45.0 per cent was irrigated. The area sown more than once was 1.4 million hectares of which 0.9 million hectares or about 66.02 per cent was irrigated.

Out of 2.4 million hectares of total area cultivable but not cultivated, 1.3 Million hectares was under current fallows and the remaining was under other non-cultivated lands excluding current fallows. The extent of area under uncultivable land was 4.3 million hectares comprising 2.0 million hectares (46.8 percent) of forest land and 2.3 Million hectares (53.2 percent) of other un-cultivable area including land put to non-agricultural uses.

The gross cropped area was 7.7 million hectares out of which 3.8 million hectares or 50.29 per cent was irrigated

IRRIGATION - Out of 6.3 Million hectares of net area sown 2.9 Million hectares or 45.96 per cent was irrigated. The percentage of net area irrigated to net area sown was maximum at 86.9 per cent in Thanjavur district. Chengalpattu district came next in order, the percentage being 75.2 per cent followed by South Arcot with 60.6 percent and Pudukkottai district with 51.2 percent. The figure was less than 50 per cent in the remaining districts of the State as indicated below

3.1 *Contd.*

<i>District.</i>							<i>Percentage of Net area Irrigated to Net area sown.</i>
	(1)						
North Arcot 48.1							
Coimbatore 42.5							
Madurai 41.2							
Ramanathapuram 39.1							
Tirunelveli 38.0							
Kanniyakumari 35.7							
Tiruchirappalli 34.8							
Salem 29.4							
Dharmapuri 17.4							
The Nilgiris 6.3							

Sources of irrigation.

Percentage of area irrigated to the total net area irrigated.

	(1)	(2)
1. Wells (Tube wells and ordinary wells) 37.2		
2. Government canals 32.0		
3. Tanks 29.3		
4. Other sources including private canals 1.5		

Wells supplementary other irrigation sources to an extent of 4.6 per cent.

Government canals and tanks.—Government canals were the principal sources of irrigation in the district of Thanjavur (96·4 per cent), Tiruchi (59·3 per cent), Kanniakumari (44·6 per cent) and Coimbatore (42·9 per cent). The districts where tanks served as important sources are given below together with the percentage of area irrigated.

<i>District.</i>	<i>Percentage of area irrigated from tanks to the total net area irrigated in the district.</i>					
	(1)	(2)				
Ramanathapuram	80·5				
Pudukkottai	78·6				
Chengalpattu	60·2				
Kanniakumari	54·1				
Tirunelveli	46·4				
North Arcot	32·3				
South Arcot	28·5				
Madurai	24·5				

Wells and other sources.—Wells including tube wells were the chief sources of irrigation in Salem, Dharmapur, North Arcot, Coimbatore, Madurai, Tiruchirapalli, Tirunelveli and South Arcot district accounting for 77·5 per cent, 62·8 per cent, 58·5 per cent, 54·9 per cent, 51·7 per cent, 40·7 per cent, 40·3 per cent and 24·9 per cent respectively.

Other sources of irrigation such as spring channels and Kasams were important in the Nilgiris district and accounted for 93·0 per cent.

Wells supplementing other irrigation sources.—Wells supplementing other irrigation sources served fairly large areas in Chengalpattu and South Arcot Districts their percentage to the total net area irrigated in the districts being 9·48, and 6·45 respectively.

Crops Irrigated.—The total extent raised with crops (Gross cropped area) was 7·7 millions hectares and the net area sown was 6·3 million hectares. The difference represents the area on which more than one crop was raised. The area of crops irrigated in the State was 3·8 million hectares and this showed an increase of 0·09 million hectares as compared with that for the previous year. The area of crops irrigated was as high as 78·3 per cent in Chengalpattu district followed by Thanjavur district with 68·6 per cent. The area of crops irrigated was less than 25 per cent of the gross area sown in the following districts.—

<i>District.</i>	<i>Percentage of the area of crops irrigated to gross area sown.</i>					
	(1)	(2)				
Dharmapuri	19·4				
The Nilgiris	6·0				

Of the total area of crops irrigated 75·7 per cent accounted for cereals and pulses, 4·1 per cent for sugarcane, 7·4 per cent for oil seeds (Groundnut, Gingelly and Castor) 4·3 per cent for cotton and the remaining 8·5 per cent for other crops.

2. The area irrigated more than once was 0·9 million hectares.

3.2 AREA IRRIGATED BY SOURCES/CROPS 1978—79.

INDEX NUMBERS OF AGRICULTURAL ECONOMY.

The index of area under crops has increased by 3.4 points from 107.2 in 1978-79 to 110.6 in 1979-80. The index of cropping intensity has increased by 3.2 points from 103.2 in 1978-79 to 106.4 in 1979-80. There is no change in the index of cropping pattern in 1979-80 as compared to 1978-79.

The index of yield has increased by 3.0 points from 130.6 in 1978-79 to 133.6 in 1979-80. The index of productivity per net hectare has increased by 7.8 points from 142.2 in 1978-79 to 150.0 in 1979-80. The index of agricultural production has increased by 8.1 points from 147.7 in 1978-79 to 155.8 in 1979-80.

INDEX NUMBERS OF WAGES PAID TO CERTAIN CATEGORIES OF AGRICULTURAL LABOURERS.

The index numbers of wages paid to the agricultural labourers during the quarter ended September 1980 (with new base year 1970=100) have shown an upward trend over those for the previous quarter ended June 1980. (with new base year 1970=100) in all the cases of agricultural labourers. In respect of women labourers under 'Tending Cattle', it is noticed that they were not engaged in such a per cent during the month under review. As there is no mention of the non-adult labourers in the G.O. No. 1471, Labour and Employment Department, dated 16th September 1979 (New in force) the Index numbers for non-adult labourers are not compiled. The increase ranged from 6 points to 14 points. The maximum increase is in the case of men and women labourers under 'Field labourers' while the minimum increase is in the case of men labourers under 'Field labourers'.

AREA AND YIELD OF COCONUT AND ARECANUT IN TAMIL NADU

According to the provisional estimates of Coconut and Areca-nut Survey the estimated area under Coconut in Tamil Nadu for 1979-80 was 1,14,860 hectares in its total production was 1,192.20 million nuts. When compared with the previous year, the estimated area and production of coconut showed an increase of 4.89 per cent and 6.13 per cent respectively.

The estimated area under arecanut was 4,280 hectares with the total production of 2,992 tonnes of cured arecanuts registering an increase of 2.88 per cent and 2.82 per cent respectively over the previous year.

The estimated number of coconut palms for 1979-80 was 37.69 millions out of which 68.76 per cent were bearing palms. The bearing coconut palms yielded 1,192.20 millions nuts. District-wise details are given in the following table.

3.5. ESTIMATED AREA, NUMBER OF PALMS AND PRODUCTION OF COCONUT FOR 1979-80. (PROVISIONAL).

<i>Serial number and districts.</i>		<i>Estimated area in hectares.</i>	<i>Estimated number of palms 000'.</i>	<i>Estimated production of nuts in lakhs.</i>

SALIENT FEATURES OF THE CROP PROSPECTS.

Water supply is adequate in all the districts except North Arcot, South Arcot and Ramanathapuram during the quarter.

Ploughing and Sowing operations have been completed in all districts except South Arcot, Pudukkottai, Thanjavur and Tiruchirapalli districts. Ploughing operations were in progress in certain parts of Tittagudi, Villupuram. Tindivanam, Kattumannarkoil, Panruti and Ulunderpet taluks of South Arcot districts.

Transplantation was over in all districts except North Arcot, Thanjavur, Pudukkottai, Madurai, Tirunelveli and Preiyar Districts. Transplantation of Samba under well ayacut is in progress in North Arcot district. Transplantation of Paddy was in progress in certain parts of Chidambaram, Kattumannarkoil, Panruti Virudhachalam and Kallakurichi taluks of South Arcot district. Kuruvai and Samba transplantation has been completed in Thanjavur district. Transplantation of Paddy was going on in certain pockets in Usiampatti taluk of Madurai district. Transplantation works have not yet been completed in lower irrigation reaches of Tirunelveli district due to non-receipt of water.

The condition of standing crop is fair in all districts except Government in North Arcot districts, unirrigated crops in Tiruchirapalli and dry crops in Dharmapuri. In some pockets the Groundnut crop will wither if sufficient rains do not come early in North Arcot district. In Tiruchirapalli district unirrigated crops in dry tracts have started withering for want of rain. Dry crops are withering for want of rain in Dharmapuri district.

The out-turn of paddy and sugar cane was fair in North Arcot, South Arcot, Salem and Coimbatore districts. The out turn of ragi harvested was normal in North Arcot, Salem and Coimbatore Districts.

The statistics of area and production of certain crops during the quarter under review are given in the statements appended.

IV. INDUSTRIES.

RESULTS OF ANNUAL SURVEY OF INDUSTRIES.

Annual Survey of Industries is conducted by National Sample Survey Organisation, Government of India under the Collection of Statistics Act, 1953 and Collection of Statistics (Central) Rules, 1959.

The factories registered under section 2m(1) and 2 m(ii) of the Factory Act 1948, and the Beedi establishments are covered by the Survey.

The survey is covered under two parts viz. census and Non-census. Factories employing 50 or more workers using power and 100 or more workers not using power are covered under the Census sector. Factories employing 10 to 49 workers using power and 20 to 99 workers not using power are covered under Non-Census sector. The Survey excludes from its per view the units engaged in defence production, storage and distribution of oils restaurants and services technical institutions not producing anything for sale or exchange even though they are registered as Factories under the Factories Act 1948. A copy of the return for each factory collected by the National Sample Survey Organisation is received by this Department for the purpose of analysing the results for the use of State Government.

The Survey for the year 1976-77 is the latest for which results are available and the same has been given in the annexure.

INDUSTRIAL PRODUCTION BY PRODUCTS.

The Industrial Production in Registered Sector decreased by 9.7 per cent of 17.7 points during the Quarter ended June 1980 as the average general index (Base 1970=100) decreased from 182.0, in the Quarter ended March 1980 to 164.3 in the Quarter ended June 1980.

Considerable decreases in output were observed in respect of sugar (Refined) (55.3 per cent), Tyres (All Types) (24.7 per cent), Tubes (All Types) (50.1 per cent), Superior Kerosene (33.2 per cent), High Speed Diesel Oil (31.4 per cent), High Pressure Boilers and Fittings (37.6 per cent), Transformers (49.1 per cent), Railway Wagons (38.0 per cent) and Synthetic Gem Stones (32.5 per cent).

Significant increases in output were noticed in respect of Lignite (49.3 per cent), Bauxite (42.6 per cent), Magnesite (24.9 percent), Gypsum (22.5 per cent) Refined Oil (214.8 per cent), Tea Processed, (96.4 per cent), Coffee (Cured) (47.2 per cent) and Safety Matches (20.6 per cent).

4.2. INDUSTRIAL PRODUCTION BY PRODUCTS.

V. HANDLOOM.

The production of handloom cloth in Tamil Nadu during the quarter ended June 1980 quarter, registering a decrease of 3·17 per cent. This fall in the production of handloom cloth Previous was estimated at 164,758,000 metres as against 170,164,000 metres during the was mainly due to the increase in the prices of yarn and the heavy accumulation of stocks of handloom goods as a result of which the weavers were not willing to take a risk in producing more cloth.

Among the different varieties of cloth produced saree accounted for 32·07 percent and dhoties, towels and lungies for 13·14 percent 22·02 percent and 7·64 percent respectively. The remaining 25·13 per cent of the production was shared by shirting, beds preads, carpets, gada etc.,

Out of total production, cotton fabrics have accounted for 87·55 per cent followed by Art silk, mixture of cotton and Art silk, and silk fabrics with 6·35 per cent, 5·33 per cent and 0·77 per cent respectively.

Plantation.—As on 30th June 1980, there were 324 plantations registered under the plantations Act in Tamil Nadu comprising of 142 Tea, 142 Coffee, 36 Rubber and 4 Cinchona. Out of these 240 reported Statistics relating to employment and their earnings. These comprised of 112 Tea, 99 Coffee, 25 Rubber and 4 Cinchona Estates. During the corresponding quarter in the previous year there were 326 plantations registered comprising of 142 Tea, 146 Coffee, 32 Rubber and 6 Cinchona. Of these 251 plantations have sent the returns, the details being 119 Tea, 102 Coffee, 27 Rubber and 3 Cinchona.

Tea Plantations.—The total number of workers employed in Tea plantations as at the end of the quarter June, 1980 were 65,625. Out of them 56,765 or 86 per cent were permanent workers. During the corresponding quarter in the previous year there were 64,256 workers. Of these permanent workers were 56,600 or 88 per cent. The percentage of permanent workers decreased during the quarter under review compared to that of the corresponding quarter of the previous year due to employment of more temporary workers. The average daily attendance of permanent workers during the quarter ended June 1980 was higher compared to the corresponding quarter of the previous year. During the quarter under review, the average daily cash earnings earned by the permanent Garden Labourers were Rs. 9.58, Rs. 10.26 and 6.58 for men, women and minors, Whereas they were Rs. 8.59, Rs. 9.06 and Rs. 5.91 respectively during the quarter ended June 1979. Similar details in respect of other categories of labourers are furnished in the tables 1 and 2.

Coffee Plantations. As on 30th June 1980, the workers employed were 8192 in the coffee plantations, as against 7331 workers during the quarter ended June 1979. Of these 4429 or 54 per cent were permanent workers in the current quarter as compared to 4021 or 55 per cent during the quarter ended June 1979. Average daily attendance of permanent workers was 44 per cent in the current year as against 45 per cent during the quarter ended June 1979. Average daily cash earnings of the permanent Garden Labour was Rs. 8.00 for Men, Rs. 7.92 for women and Rs. 5.88 for minors as against Rs. 6.64, Rs. 6.13 and Rs. 5.37 respectively during the quarter ended June 1979. Similar details in respect of other categories of labourers are furnished in the tables 1 and 2.

Rubber Plantations.—1477 workers were employed in Rubber Plantations during the quarter ended June 1980 as against 1517 in the quarter ended June 1979. Of these, permanent workers were 1421 or 96 per cent as compared to 1452 or 96 per cent in the Quarter ended June 1979. The average daily attendance of permanent workers was 83 per cent both in the Quarter under review and the corresponding quarter of the previous year viz June 1979. During the quarter ended June 1980, the average daily cash earning earned by the permanent Garden Labourers were Rs. 12.57 for men, Rs. 11.67 for women where as they were Rs. 9.68 and Rs. 8.73 respectively during the quarter ending June 1979. Similar particulars in respect of other categories of workers are furnished in tables 1 and 2.

Cinchona Plantations. During the quarter under review 2479 workers were employed in cinchona plantations as against 1941 in the quarter ended June 1979. The increase in the number of workers in due to receipt of returns from all the four cinchona Estates in the current quarter. Of these 1974 or 76 per cent were permanent workers as compared to 1158 or 60 per cent in the quarter ended June 1979. The average daily attendance of permanent workers was 1658 or 67 per cent in the current quarter. Whereas it was 1081 or 56 per cent during the quarter ended June 1979. Average daily cash earnings of permanent Garden Labour were Rs. 9.25 for men, Rs. 9.97 for women and Rs. 5.00 for minors in the Quarter ended June 1980 as against Rs. 6.42, Rs. 6.66 and Rs. 4.04 respectively in the quarter ended June 1979. It may be noted that in both the quarters ended in June 1979 and June 1980. No permanent outside workers were employed in cinchona plantations. Data in respect of other categories of workers are furnished in the appended tables 1 and 2.

xv STATE INCOME

State Income of TamilNadu according to Quick Estimate framed by this department the Net State Domestic Product for Tamil Nadu in rural terms, i.e. at 1970-71 prices, stood at Rs. 3,223.98 crores as against Rs. 2,911.83 crores in the previous year registering a growth of 10.7 per cent. The estimates for the years 1976-77 to 1977-78 were revised with reference to latest data available. The per capita income during the year stood at Rs. 702 registering 9.2 per cent increase over the previous years. The primary sector generally commands the trend in State Income accounting for 38.2 per cent of total Net State Domestic Product during the year 1978-79 with a growth of 12.1 per cent over the previous year. This is mainly attributed to the better performance in the agricultural front. A bumper harvest of food-grains to the tune of 83.2 lakh tonnes during the year supplemented by a substantial increase in commercial crop production have been mainly responsible for the increase in the primary sector. The secondary sector also performed impressively during the year with an increase of 13.1 per cent over the previous year. Of these, the registered sector which is the major one among the secondary sector forged ahead with an increase of 16.3 per cent during 1978-79, considerably a high rate of growth. The income from Electricity, gas and water supply also continued to register an increase of 14.4 per cent during 1978-79. The tertiary sector continued to maintain a sizeable increase during 1978-79 also.

At current prices the State and per capita income during 1978-79 is estimated at Rs. 5,281.12 crores and Rs. 81,151 respectively.
